HANDY ROAD TRIP CHECKLIST

Clothing

Note: Even in summer Tasmania can experience short but intense storms that sweep up from the Antarctic. We've listed some items of clothing as being 'winter', but if you can fit them in your checked baggage then we recommend bringing them with you even in summer, just in case.

If you are limited by space, and you're worried about the cold, then we suggest packing additional base layers, as they take up little room and are superb at maintaining your core temperature.

We recommend at least 7 days to experience the Lap of Tasmania - so make sure you pack enough to last that long.
